THE APPLICATION OF RUSSELL CO. GAS)	
UTILITY, INC. FOR PERMISSION TO MAKE)	
AN EXTENSION OF ITS GAS SYSTEM TO)	CASE NO.
INCLUDE NEW CONSTRUCTION OF A FOUR-INCH)	91-276
PE GAS SUPPLY LINE TO SERVE AN INDUSTRIAL)	
USER AND GAMALIEL, KENTUCKY)	

O R D E R

IT IS ORDERED that Russell County Gas Company ("Russell County") shall file the original and 10 copies of the following information with the Commission within 14 days of the date of this Order. Each copy of the data requested should be placed in a bound volume with each item tabbed. When a number of sheets are required for an item, each sheet should be appropriately indexed, for example, Item 1(a), Sheet 2 of 6. Include with each response the name of the witness who will be responsible for responding to questions relating to the information provided. Careful attention should be given to copied material to ensure that it is legible. Where information requested herein has been provided along with the original application, in the format requested herein, reference may be made to the specific location of said information in responding to this information request. If the information cannot be provided by the stated date, Russell County should submit a motion for an extension of time stating the reason a

delay is necessary and a date by which the information will be furnished. Such a motion will be considered by the Commission.

1. Provide the following information:

a. The composition and the maximum operating pressure of the natural gas of the Texas Eastern Gas Pipeline Company ("Texas Eastern") at the point of supply to the proposed project.

b. The data and criteria that will be used as the basis for the design of the pressure reducing station. Provide a sketch showing the facilities that will be used in reducing the pressure.

c. Describe the safety features which will prevent the 4-inch transmission pipeline from freezing due to Joule Thomson effect and the high upstream pressure in case of any malfunction in the pressure reducing regulator.

2. Provide the construction specifications and bid documents and identify the construction contractor.

3. Provide the annual estimated volumes for 3 years that will be supplied to the potential industrial, commercial, and residential customers.

4. Provide any contracts or agreements with Texas Eastern and/or the potential customers regarding gas service and supply.

5. Provide any agreements with the owners of the lands along the rights-of-way of the proposed pipeline.

6. Provide the estimated cost of the project in its different phases.

7. Provide the construction schedule.

8. Provide an estimate of the amount of additional revenue expected to be generated by the proposed construction on an annual basis for the first 3 years of operations. State the rate or rates used in arriving at this estimate and the basis for using the particular rate used.

9. Provide an estimate of the number of industrial, commercial and residential customers Russell County expects to serve from this particular line.

Done at Frankfort, Kentucky, this 18th day of September, 1991.
